Discussion/Approval of School Security and Safety Report

Charmaine stated that the Middle school had it's yearly security and safety audit in January. She stated that Region 4 is commissioned by TEA to come out and check the doors of each school's facility. The security officer checked the entry, exit and classroom doors. They entered the front and checked in using the school regular process. All entry doors were checked- there were no issues. The classroom doors were checked – they were all locked. The exit doors were checked. All doors were locked but number 4 door at the back of the facility was closed but had a broken handle that allowed the door to be opened from the outside. Principal had a meeting to discussed the findings with the staff. She immediately put in a service ticket to repair the door handle. The door was repaired. The daily logs were checked. Rene asked if the security offices have any responsibility for the doors and gates. Charmaine stated that the security officers do regular sweeps of the doors and gates. They also help cross the students and monitor who enters and exits the property.
